EDUCATION

University of Washington

Seattle, WA

Bachelor's of Science, Materials Science and Engineering,

Minors in Mathematics and Applied Mathematics

Sept 2024 — June 2027

- Cumulative GPA: 3.5/4.0
- Relevant Coursework: Engineering Statics, Intro to Engineering Design, Thermodynamics, Materials Science Undergraduate Labs I II & III, Organic Chemistry I II & III & Labs (3.7), Scientific Computing (3.9), Linear Algebra & Numerical Analysis (4.0), Advanced Multivariable Calculus, Probability and Statistics (3.7), Introductory Programming (4.0), Differential Equations & Applications (4.0)

PROJECTS

Undergraduate Researcher, Data-Driven Analysis of Pressed Biomass Bioplastics

Jan 2026 — Present

- Developed surrogate models from experimental data to optimize materials processing under time, budget, and composition constraints.
- Applied multi-objective, uncertainty-aware optimization to identify robust processing conditions and improve model accuracy.

UW Lean Hackathon

May 2026

- Formalized components of the Edmonds Blossom algorithm and Berge's theorem in Lean 4 using Mathlib.
- Built an autoresearch pipeline leveraging LLM APIs to close sorry placeholders and reduce compilation time through tactic search.

Boeing Corrosion Case Study

Sept 2025 — Dec 2025

- Researched corrosion mechanics and mitigation strategies under Boeing engineer mentorship; designed experiments, analyzed data, and evaluated solutions across cost, lifespan, and maintenance criteria.
- Presented findings and implementation recommendations to a Boeing engineering panel.

WORK EXPERIENCE

Intern

May 2026 — Present

Math, Inc.

New York, NY

- Developed agentic workflows to parallelize large-scale Lean 4 formalization projects.
- Contributed to auto-formalization pipelines for mathematics research, leveraging Mathlib as a foundation for formal verification.

General and Organic Chemistry Tutor

Sept 2025 — Mar 2026

Self Employed

Seattle, WA

- Assisted students in concurrent and previously completed chemistry courses.
- Held one-on-one learning sessions and test reviews resulting in increased test scores for majority of students.

Barista

Apr 2024 — Sept 2024

Wake Up Call Coffee Co.

Walla Walla, WA

- Reduced average drink wait time from 5 to 3 minutes by streamlining workflow and work distribution.
- Handled orders, customer interactions, and cash/card transactions in a fast-paced environment.

EXTRACURRICULAR ACTIVITIES

Husky Cycling Off-road Team Captain

June 2025 — Present

- Raced category 4 cyclo-cross for the 25' season with multiple top 20 finishes
- Participated in WSBA sanctioned category 3 criterium races during 25' and 26' seasons

SKILLS

- **Technologies:** Matlab, Python, Lean 4, Mathlib, LaTeX, Typst, Bash, Microsoft Windows & Suite, Git, macOS, AutoCAD, Solidworks (CSWA - Academic Certification), Mnova, Arduino IDE
